Local Medical Notes	93

BRISTOL: J. W. ARROWSMITH.

LONDON: J. & A. CHURCHILL, 7 GREAT MARLBOROUGH STREET.

Price One Shilling and Sixpence.

EXTRACT from Instructions issued by The London Hospital:—

HOW TO BRING UP INFANTS BY HAND.

"Fresh Cow's Milk must be used; during the first month it must be diluted with at least twice as much water, or better still, with lime water or Barley Water in the same proportion."

"As the child gets older the proportion of milk must be gradually increased."

TO DOCTORS!

Gentlemen,—You may safely order

ROBINSON'S "PATENT" BARLEY "IN POWDER FORM"

to make

BARLEY WATER

as a

DILUENT OF COW'S MILK FOR INFANT FEEDING.

More economical and more easily prepared than the ordinary Pearl Barley, which is often adulterated with Soapstone or Steatite.

IS THE PUREST FARINA OF THE FINEST SCOTCH BARLEY.

Samples and full information can be obtained from

Messrs. KEEN, ROBINSON & Co. Ltd., LONDON.
